

BLACK & BLUE

When it comes to beautiful blues, goats are the new cows. Well, not quite, but the playing field has been leveled. Black & Blue's dense, buttery, and stark white interior is as gorgeous to look at as it is to savor—with exactly the right amount of sweetness, making it appealing to just about any level of blue cheese fan. One of the world's few goat cheese blues. And one of the very best.

"Why," asked our friends the goats, do cows get such a preference when it comes to Blue Cheeses? The goats got what they wanted. And the cows? Well, they didn't mind too much. You know cows. They take things like that in stride.
